```
@startuml ClaClo-Manager-Architecture
component "UniversityAccountService" <<service>> {
 interface "IUniversityAccount" as IUA
 IUA : addProgramme()
 IUA : updateDepartment()
}

component "StudentRecordService" <<service>> {
 interface "IStudentRecord" as ISR
 ISR : updatePlan()
 ISR : getAuditLog()
}

component "StaffManagementService" <<service>> {
 interface "IStaffManagement" as ISM
 ISM : createAccount()
 ISM : archiveRecord()
}

UniversityAccountService -- ISR
StudentRecordService -- ISM
@enduml
```

Instructions:

- All components **must** have `<<service>>`.
- Interfaces **must** list methods.
